Keenan SafeSchools Trainings

Did you know that you have over 260 training courses at your fingertips? Keenan SafeSchools (KSS) is a free, online training resource for our schools that offers a wide span of topics with courses ranging from two minutes to two hours in length! Whether your staff is due for their annual mandated trainings, or you're looking for a quick course to review during a staff meeting, you will find a pertinent and informative course on KSS.

Through your District's KSS Administrator, you can have all staff members issued their own personal login, or you can administer these trainings in a group session during your regularly scheduled safety or staff meetings. If completed as a group, each employee is still able to be granted credit for the course completion and will be issued a certificate of completion.

Training Categories include:

- Child Abuse Prevention
- Emergency Management
- Employment Practices/Supervisory
- Environmental
- Health
- Human Resources
- Information Technology
- Nutrition Services
- Policy
- Security
- Social and Behavioral
- Special Education
- Transportation

All courses are accessible to every employee, or specific courses can be assigned to staff as needed. North Coast Schools Insurance Group is always happy to assist in setting up the trainings or in helping to navigate the system.
