District Budget for Federal and State Programs

Background

The *No Child Left Behind (NCLB) Act of 2001* embodies four key principles:

- stronger accountability for results;
- greater flexibility and local control for states, school districts, and schools in the use of federal funds;
- enhanced parental choice for parents of children from disadvantaged backgrounds; and
- a focus on what works, emphasizing teaching methods that have been demonstrated to be effective.

(Text of the legislation can be found at <http://www.cde.ca.gov/nclb/fr/>.)

In May 2002, California's State Board of Education (SBE) demonstrated the state's commitment to the development of an accountability system to achieve the goals of NCLB by adopting five **Performance Goals**:

- 1. All students will reach high standards, at a minimum attaining proficiency or better in reading and mathematics, by 2013-14.**
- 2. All limited-English-proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.**
- 3. By 2005-06, all students will be taught by highly qualified teachers.**
- 4. All students will be educated in learning environments that are safe, drug-free, and conducive to learning.**
- 5. All students will graduate from high school.**

In addition, 12 performance indicators linked to those goals were adopted (see Appendix A), as specified by the U.S. Department of Education (ED). Performance targets, developed for each indicator, were adopted by the SBE in May 2003.

Collectively, NCLB's goals, along with the performance indicators and targets, constitute California's framework for federal accountability. This framework provides the basis for the state's improvement efforts, informing policy decisions by SBE, and implementation efforts by the California Department of Education (CDE) to fully realize the system envisioned by NCLB. It also provides a basis for coordination with California's Legislature and the Governor's Office.

Since 1995, California has been building an educational system consisting of five major components:

- rigorous academic standards
- standards-aligned instructional materials
- standards-based professional development
- standards-aligned assessment
- an accountability structure that measures school effectiveness in light of student achievement

As a result, California is well positioned to implement the tenets of NCLB.

State and federally funded initiatives aimed at improving student achievement must complement each other and work in tandem in order to have the greatest impact. In California, the state and federal consolidated applications, competitive grants, the state accountability system, the Categorical Program Monitoring process, the single **plan for student achievement, local educational agency (LEA) plans**, professional development opportunities, and technical assistance all are moving toward a level of alignment and streamlining. The result of this consolidation will be a cohesive, comprehensive, and focused effort for supporting and improving the state's lowest-performing schools and appropriate reporting mechanisms.

Descriptions of the Consolidated Application, the Local Education Agency Plan, the Single Plan for Student Achievement, and Categorical Program Monitoring

In order to meet legislative requirements for specific state and federal programs and funding, California currently employs four major processes: the Consolidated State Application, the Local Educational Agency Plan, the school-level Single Plan for Student Achievement, and Categorical Program Monitoring. **California is moving toward more closely coordinating and streamlining these processes to eliminate redundancies and make them less labor intensive for LEAs, while continuing to fulfill all requirements outlined in state and federal law.**

Below is a brief description of the ways in which these various processes currently are used in California.

The Consolidated Application (ConApp)

The ConApp is the **fiscal** mechanism used by the California Department of Education to distribute categorical funds from various state and federal programs to county offices, school districts, and charter schools throughout California. Annually, in June, each LEA submits Part I of the ConApp to document participation in these programs and provide assurances that the district will comply with the legal requirements of each program. Program entitlements are determined by formulas contained in the laws that created the programs.

Part II of the ConApp is submitted in the fall of each year. It contains the district entitlements for each funded program. Out of each state and federal program entitlement, districts allocate funds for indirect costs of administration, for programs operated by the district office, and for programs operated at schools.

The Local Educational Agency Plan (LEA) Plan

The approval of the LEA Plan by the local school board and the State Board of Education is a requirement for receiving federal funding subgrants for NCLB programs. The LEA Plan includes specific descriptions and assurances as outlined in the provisions included in NCLB. In essence, LEA Plans describe the actions that LEAs will take to ensure that they meet certain **programmatic** requirements, including student academic services designed to increase student achievement and performance, coordination of services, needs assessments, consultations, school choice, supplemental educational services, services to homeless students, and other services as required. In addition, LEA Plans summarize assessment data, school goals and activities from the *Single Plans for Student Achievement* developed by the LEAs schools.

The Single Plan for Student Achievement (SPSA)

State law requires that school-level plans for programs funded through the Consolidated Application be consolidated in a *Single Plan for Student Achievement (SPSA)* (*Education Code* Section 64001), developed by school site councils with the advice of any applicable school advisory committees. LEAs allocate NCLB funds to schools through the Consolidated Application for Title I, Part A, Title III (Limited English Proficient), and Title V (Innovative Programs/Parental Choice). LEAs may elect to allocate other funds to schools for inclusion in school plans. The content of the school plan includes school goals, activities, and expenditures for improving the academic performance of students to the proficient level and above. The plan delineates the actions that are required for program implementation and serves as the school's guide in evaluating progress toward meeting the goals.

Role of School Site Council

The California *Education Code (EC)*¹ requires the school site council to develop a SPSA for ConApp programs operated at the school or in which the school participates. In addition, Pupil Retention² and School and Library Improvement Block Grant programs³ operated at the school must be included in the SPSA. The school site council must approve the plan, recommend it to the local governing board for approval, monitor implementation of the plan, and evaluate the results. At least annually, the school site council must revise the plan, including proposed expenditures of funds allocated to the school through the ConApp, and recommend it to the local governing board for approval.

Composition of School Site Council

Composition of the school site council is specified in the California *Education Code* as follows:

- The school site council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school;⁴ parents of students attending the school selected by such parents; and, in secondary schools, students selected by students attending the school.
- **At the elementary level**, the school site council shall be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel; and (b) parents or other community members selected by parents. In schools with fewer than three teachers, this requirement may be met by establishing a school site council that is composed of equal numbers of school staff and parents or other community members selected by parents.
- **At the secondary level**, the school site council shall be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) equal numbers of parents or other community members selected by parents and students.
- **At both the elementary and secondary levels**, classroom teachers shall comprise the majority of persons represented under subdivision (a) of this section.

² *EC* Section 41507

³ *EC* Section 41572

⁴ For example, counselors, psychologists, social workers, nurses, instructional paraprofessionals, library personnel, and clerks employed at the school

Categorical Program Monitoring (CPM)

State and federal law require CDE to monitor the implementation of categorical programs operated by local educational agencies. This state-level oversight is accomplished in part by conducting on-site reviews of eighteen such programs implemented by local schools and districts. Through CPM, the state monitors one-fourth of all school districts each year. Monitoring visits are conducted by state staff and local administrators trained to review one or more of these programs. The purpose of the review is to verify **compliance** with requirements of each categorical program, and to ensure that program funds are spent to increase student achievement and performance.

Development Process for the Single School District (SSD) Plan

LEAs must develop a single, coordinated, and comprehensive plan that describes the educational services for all students that can be used to guide implementation of federal- and state-funded programs, the allocation of resources, and reporting requirements. The development of such a plan involves a continuous cycle of assessment, parent and community involvement, planning, implementation, monitoring, and evaluation. The duration of the Plan should be five years. ***The Plan should be periodically reviewed and updated as needed, but at least once each year.***

This SSD Plan template is an effort to further align and streamline the planning requirements for single school districts, which includes direct-funded charter schools. This document incorporates the required elements of both the SPSA and the LEA Plan. Use of this template meets all state and federal requirements for plans for categorical programs. More detailed information regarding the SPSA can be found at <http://www.cde.ca.gov/nclb/sr/le/singleplan.asp>. The complete guide and template for the LEA Plan can be found at <http://www.cde.ca.gov/nclb/sr/le/>.

In developing the SSD Plan, the SSD will review its demographics, test results, performance, and resources. Given that the majority of such information is readily available in the School Accountability Report Card (SARC), the Standardized Testing and Reporting (STAR) performance results, the Academic Performance Index (API) results, and other data sources, the SSD will find the data easy to access via the Internet. (See Appendix B for links to each of the web sites containing student and staff demographic information, SARC, STAR, and API data.) **The SSD is expected to gather and review information from these resources and use it to inform the planning process.**

The SSD Plan can serve as a summary of all existing state and federal programs and establish a focus for raising the academic performance of all student groups to achieve state academic standards. In the context of this Plan, improvements in instruction, professional development, course offerings, and counseling and prevention programs are means of achieving specific academic and support services goals for all groups of

students, including identified under-performing student groups. **State and federal laws require that school site administrators, teachers, and parents from the SSD (which includes direct-funded charter schools) must be consulted in the planning, development, and revision of the SSD Plan.**

The SSD Plan can be completed through the use of a single template following the six steps outlined below. Because the SSD Plan combines the LEA Plan with the SPSA, it becomes the responsibility of the school site council to develop, approve and recommend the SSD Plan to the local governing board for approval.

Step One: Measure the Effectiveness of Current Improvement Strategies

Analyze Student Performance

Conduct a comprehensive data analysis of student achievement, including multiple measures of student performance. Identify all relevant assessments and apply thoughtful analyses of current educational practices to establish benchmarks aimed at raising academic performance for all students, especially identified student groups.

Tables of data for your schools and district are available online:

- API Reports - <http://www.cde.ca.gov/ta/ac/ap>
- Standardized Testing and Reporting (STAR) data - <http://www.cde.ca.gov/ta/tg/sr>
- LEA Accountability Reports of Annual Measurable Achievement Objectives (AMAOs) for English learners - <http://www.cde.ca.gov/sp/el/t3/acct.asp>
- Adequate Yearly Progress (AYP) Reports – <http://www.cde.ca.gov/ta/ac/ay>

Analyze Current Educational Practices, Professional Development, Staffing, and Parental Involvement

Identify, review, and analyze data and related information on factors such as educational practices, parent and community involvement, professional development, support services, and resources that have an impact on student learning.

Over the past several years, CDE has developed several self-assessment tools that schools and districts can use to evaluate these factors and others needed to support academic student achievement:

- The Academic Program Survey (APS) – school-level survey of status of implementation of the nine essential program components (not required for single school districts)

- District Assistance Survey (DAS) – district-level survey of status of implementation of nine essential program components
- Least Restrictive Environment Assessment – examines educational practices for students with disabilities
- English Learner Subgroup Self Assessment (ELSSA) – designed to improve outcomes for English learners

These tools can be found under Improvement Tools in the Virtual Library on the CDE web site at <http://www.cde.ca.gov/ta/lp/vl/improvtools.asp>.

(See Part II, Needs Assessment, for further details.)

Step Two: Seek Input from Staff, Advisory Committees, and Community Members

The school site council must seek the input of teachers, administrators, councils, committees, parents, and community members (e.g., school health council, committees for Limited English Proficient students, state compensatory education, gifted and talented education, special education, etc.). The most effective plans are those supported by the entire LEA community. The integration of existing program plans, such as Immediate Intervention/Underperforming Schools Program, High Priority Schools Grant Program, Alternative Education Programs, Focus on Learning: Secondary School Accreditation, and others does not eliminate any program requirements. The combined process must include the requirements of every program involved.

Step Three: Develop or Revise Performance Goals

Using the five NCLB performance goals and indicators (see Appendix A), develop local performance targets that are: a) derived from school and student subgroup performance data and analysis of related, scientifically based educational practices; b) attainable in the period specified in this Plan and consistent with statewide targets for all students and subgroups; c) specific to the participants (i.e., students, teachers, administrators, paraprofessionals); and d) measurable.

Step Four: Revise Improvement Strategies and Expenditures

For all categorical programs, identify the participants, expected performance gains, and means of evaluating gains. Indicate specific improvements and practical monitoring of their implementation and effectiveness.

Identify available resources. Aside from fiscal resources available through federal and state funding, programmatic resources are available on the CDE Web site at <http://www.cde.ca.gov>. The ConApp provides funding for the following programs: Title I, Parts A and D; Title II, Part A; Title III, Part A; Title IV, Part A; Title V, Part A; Title VI, subpart 2 (Rural Low-Income); School Safety and Violence Prevention; Cal-SAFE; Peer

Assistance Review; Tobacco-Use Prevention; Economic Impact Aid; and Middle and High School Supplemental Counseling Program.

Step Five: Local Governing Board Approval

The SSD Plan must be approved by the local governing board prior to submittal to CDE. Ensure that all required signatures are affixed. The SSD Plan must be reviewed and updated annually, and all subsequent amendments should be approved by the local governing board and kept on file with the original SSD Plan.

Step Six: Monitor Implementation

To verify achievement of performance targets, monitor areas such as: a) assignment and training of highly qualified staff; b) identification of participants; c) implementation of services; d) provision of materials and equipment; e) initial and ongoing assessment of performance; and f) progress made toward establishing a safe learning environment.

The analysis of data (student, school-wide, support services, professional development) is part of the ongoing program monitoring and evaluation. When results are ***not*** as expected, it may be helpful to consider the following: a) How are performance targets and activities based on student performance and factual assessment of current educational practices? b) How educationally sound is the Plan to help reach the targets? c) How timely and effectively is the Plan being implemented? d) If the Plan has not been implemented as written, what were the obstacles to implementation?

You may use the checklist on the next page to indicate planning steps as they are completed.

Needs Assessment

The passage of NCLB imposes a number of significant new requirements on LEAs as conditions for funding provided at the state and local levels. Among these are reporting requirements designed to facilitate accountability for improving **student academic performance, teacher quality, and school safety**. As such, a needs assessment to determine strengths and weaknesses in these areas must be conducted.

In determining specific areas of need to be addressed in the SSD Plan, the SSD should review its demographics, test results, and resources. The majority of such information is readily available on the SSD's School Accountability Report Card (SARC), the Standardized Testing and Reporting (STAR) performance results, the California English Language Development Test (CELDT) results, the Academic Performance Index (API) results, California Basic Educational Data System (CBEDS), DataQuest, and other data sources. This data is easily accessible via the Internet (see Appendix B for links to each of the Web sites that contain student and staff demographic information, SARC, STAR, CELDT, and API data). The SSD is expected to gather and review its own information from these resources to determine strengths and needs and to shape the planning process.

The Sample School and Student Performance Data Forms provided with the suggested template for the SPSA are also attached to this document in Appendix F. These forms are provided for convenience only; their use is not required. The forms simply provide a suggested format for arraying the data that needs to be reviewed.

Academic Performance

The needs assessment should include a focus on the academic areas highlighted in California's Performance Goals 1, 2, 3, and 5 (see Appendix A for a full listing of all of California's Performance Goals and Indicators), including:

- Statewide standards, assessment, and accountability
- Local assessments and accountability
- Coordination and integration of federal and state educational programs
- The LEA academic assessment plan

Teacher Quality

Another component of the needs assessment should examine local needs for professional development and hiring. LEA teachers and administrators should participate in this process to identify activities that will provide:

- teachers with the subject matter knowledge and teaching skills to provide all students the opportunity to meet challenging state academic achievement standards, and
- principals with the instructional leadership skills to help teachers provide all students the opportunity to meet the state’s academic achievement standards.

School Safety and Prevention

The LEA needs assessment also focuses on Performance Goal 4 (see Appendix A). It is based on an evaluation of objective data regarding the incidence of violence, alcohol, tobacco, and other illegal drug use in the elementary and secondary schools and the communities to be served. It includes the objective analysis of the current conditions and consequences regarding violence, alcohol, tobacco, and other illegal drug use, including delinquency and serious discipline problems, among students who attend such schools (including private school students who participate in the drug and violence prevention program). This analysis is based on ongoing local assessment or evaluation activities (Sec. 4115 (a)(1)(A). *California’s Healthy Kids Survey* may also provide useful information in this area. The Survey is available at http://www.wested.org/pub/docs/chks_survey.html.

Descriptions – Program Planning

Once local strengths and needs are identified as a result of examining and evaluating current district-level data, specific descriptions can be written of how program goals will be implemented to improve student academic achievement. **On the pages that follow, the SSD will provide descriptions and information about how it plans to address the requirements of NCLB and the SPSA based upon results of the needs assessment.** Collectively, these descriptions, along with the Assurances in Part III of this document, comprise the SSD Plan.

District Profile

In the space below, please provide a brief narrative description of your district. Include your district's vision/mission statement and any additional information about the make-up of your district, including grade levels and demographics of students served, in order to provide background and a rationale for the descriptions included in the SSD Plan.

The District:

Pacific Union School is an elementary school including grades kindergarten through eight in the Pacific Union School District serving children in the community of Arcata which includes the areas of Pacific Manor, Vassaide Estates, Valley West, West End Road, North Bank Road and Hunt's Drive. School enrollment is currently about 490. Our district covers 719 square miles in a rural setting adjacent to the city of Arcata, California. Our demographics reflect the diversity and multicultural county with 64% white, 10% American Indian, 18% Hispanic, 4% Asian and Pacific Islander, 3% African American and 2% Other/Multiple Responses.

Slightly over 49% of Pacific Union School District students qualify for Free and Reduced Meals and 11% Special education services.

Pacific Union has an outstanding staff consisting of 21 regular education teachers, one speech specialist, one counselor, two special education teachers, one EL/Spanish teacher, one library technician, one nurse, one music teacher, a physical education instructor, one psychologist, one program director, 11 classroom assistants and two administrators. 100 percent of our teaching staff have taken advanced college classes and participated in professional growth workshops.

Included in our district is Trillium Elementary Charter School with K-5 classrooms. This small school setting has 40 students and three teachers.

Mission Statement:

The mission of Pacific Union School is to educate our students to become lifelong learners who will contribute productively to the world they inherit. Pacific Union addresses the diverse needs of all students. In alliance with the community, Pacific Union's highly qualified staff provides a safe and healthy environment where students experience opportunities to become positive and successful citizens.

We believe:

1. In maintaining a highly qualified, dedicated staff that is positive role models for our students.
2. In surrounding our students with positive influences and a healthy, safe, and caring environment.
3. In supporting and celebrating diversity and showing mutual respect for one another.
4. There are many successful ways of teaching and learning, and all student will be given opportunities to be successful.
5. In supporting students' opportunities to learn in our local and natural environment.
6. In supporting the involvement of the school's families and the greater community in the school's activities.
7. Students learn from exploration experiences and will be given opportunities to exchange ideas in their educational programs and environmental surroundings.
8. In supporting strong relationships between home and school.
9. The school has a responsibility to the greater community and should serve as an essential community center.
10. All students have value and education is an important step to their future.

Local Measures of Student Performance (*other* than State-level assessments)

Per NCLB Section 1112 regarding Local Educational Agency Plans, each LEA must provide the following descriptions in its Plan:

A description of high-quality student academic assessments, if any, that are in addition to the academic assessments described in the State Plan under section 1111(b) (3), that the local educational agency and schools served under this part will use to:

- a) determine the success of students in meeting the State student academic achievement standards and provide information to teachers, parents, and students on the progress being made toward meeting student academic achievement standards;
- b) assist in diagnosis, teaching, and learning in the classroom in ways that best enable low-achieving students to meet State student achievement academic standards and do well in the local curriculum;
- c) determine what revisions are needed to projects under this part so that such children meet the State student academic achievement standards; and
- d) identify effectively students who may be at risk for reading failure or who are having difficulty reading, through the use of screening, diagnostic, and classroom-based instructional reading assessments.

If the SSD uses such assessments in addition to State Academic assessments, please provide a succinct description below, and indicate grade levels and students served with such assessments.

Also, please describe any other indicators that will be used in addition to the academic indicators described in Section 1111 for the uses described in that Section.

Pacific Union School District teachers use a variety of local assessments to determine student needs. On-going assessments are used to drive instruction and to provide instruction for all students along with targeted interventions for students struggling to reach grade level standards.

All primary teachers have been trained in the use of the DIBELS tool for kindergarten through second grade. These in-class reading assessments with online tools are given school wide multiple times for benchmarks with ongoing monitoring to ensure we are making our instructional goals and to allow us to make informed decisions regarding instruction and interventions. In addition the staff continues to evaluate assessments aligned with state adopted text materials. Results of these assessments coupled with the information gathered from the state assessments and disaggregated using the LARS system provide valuable data to help teachers target instruction to meet the needs of our students.

Our RtI team uses both “pushes-in” and “pulls-out” activities to provide remedial and core support for students in all grades. Student Study Teams meet regularly to re-evaluate individual students’ progress and make adjustments to the interventions as needed. Additionally, grade level and vertical PLC teams meet weekly to discuss best practices and assessment data to plan appropriate instruction.

Administrators walk through classrooms on a daily basis to support instruction and provide informal feedback to staff. Formal evaluation strategies are used to help teachers and classified staff strengthen their instructional techniques and provide appropriate challenges and support to each student.

Staff are provided professional development time to revise additional site based assessments from the adopted state core curriculum.

Performance Goal 1: *All students will reach high standards, at a minimum, attaining proficiency or better in reading and mathematics, by 2013-2014.*

Other Performance Measures

List below any other performance measures and performance indicators the LEA has adopted specific to its prevention programs (drug, violence, truancy, school safety, etc.). Specify the performance measure, the performance indicator goal, and baseline data for that indicator.

LEA Specified Performance Measures <hr/> (Process to Collect Data)	Performance Indicator Goal	Baseline Data

Science Based Programs (4115 (a)(1)(C)):

The LEA must designate and list the science-based programs (programs proven by science to effectively prevent tobacco use, alcohol use, other drug use, and violence) selected from Appendix C. From Appendix C, list the scientifically based programs the LEA will adopt and implement to serve 50 percent or more of the students in the target grade levels. Indicate below your program selections, and provide all other requested information.

Research-based Activities (4115 (a)(1)(C)):

Based on the research cited in Appendix D, check the box for each activity the LEA will implement as part of the comprehensive prevention program and provide all other requested information.

Promising or Favorable Programs (4115 (a)(3)):

The LEA may – but is not required to – designate and list the promising or favorable programs (programs whose effectiveness is not as strongly established though scientific evidence) selected from Appendix E. From Appendix E, list the promising or favorable programs the LEA will adopt and implement to serve 50 percent or more of the students in the target grade levels. Indicate below your program selections, and provide all other requested information.

Promising Program name	Program ATODV Focus	Target Grade Levels	Target Population Size	Purchase Date	Staff Training Date	Start Date

Waiver to Adopt Promising or Favorable Programs not listed in Appendix E:

Check the box below if the LEA will submit an application for waiver in order to include other promising or favorable programs not found in Appendix E. Programs not listed in Appendix E will be considered on a case-by-case basis. The LEA must demonstrate that the program for which a waiver is requested is legitimately innovative or demonstrates substantial likelihood of success. The CDE will provide under separate cover additional information and the forms for submitting a waiver request.

Analysis of Data for Selection of Programs and Activities (4115 (a)(1)(D)):

For each selected Appendix C programs or Appendix D activities, provide a brief narrative rationale based on the SSD’s analysis of CSS, CHKS, and CSSA data related to why the LEA selected these programs and activities for implementation.

The data collected indicates students are exposed to alcohol, tobacco, and violence during their early years. Programs provided to our students help families and students cope with the stresses associated with abuse. They are designed to prevent alcohol, drug and tobacco abuse as well as develop strategies to prevent or cope with bullying/violence. In addition, programs such as Parent Involvement in Quality Education, PIQE, provide strategies and skills for parents and students to support strong character development that give students the avenues to become active, educated, and contributing members of our community.

Evaluation and Continuous Improvement (4115 (a)(2)(A)):

Provide a description for how the LEA will conduct regular evaluations of the effectiveness of the SSD’s alcohol, tobacco, other drug use and violence prevention program. Describe how the results of the evaluation will be used to refine, improve and strengthen the program.

We will continue to use data from Health Kids Survey in conjunction with site level data to evaluate and refine our programs. Site level data will include, truancy, discipline suspensions, student, parent, and staff surveys.

Use of Results and Public Reporting (4115 (a)(2)(B)):

Describe the steps and timeline the LEA will use to publicly report progress toward attaining performance measures for the SDFSC and TUPE programs. Describe how the evaluation results will be made available to the public including how the public will be provided notice of the evaluation result's availability.

Evaluation results will be presented at the Pacific Union School District Board of Trustees public meeting and will be part of Pacific Union School District School Accountability Report Card. (SARC)

Mandatory Safe and Drug Free Schools and Communities (4114(d)(2)(E)):

Briefly describe how SDFSC funded program services will be targeted to the SSD's schools and students with the greatest need. (Section 4114 [d][3])

As a single school district funds are allocated per student.

Coordination of All Programs (4114 (d)(2)(A)):

Provide a detailed, but brief, explanation of how the LEA will coordinate SDFSC funded alcohol, tobacco, other drug and violence prevention programs with other federal state and local prevention programs.

We work closely with local police and health care agencies. We have a positive relationship with Arcata Police Department Youth and Family Service Clinician. Our counselor has established multiple positive ties with local service agencies. Our Transportation Director and Response to Intervention team provide support for students and families in need of outside counseling, provisions, and/or housing assistance as well as intervention programs and assistance.

Parent Involvement (4115 (a)(1)(e)):

Provide a brief, but detailed, description of the parent involvement and describe the parent notification procedures used to meet requirements under NCLB Title IV, Part A – SDFSC program.

Parents are encouraged to actively participate in the child’s educational experience at Pacific Union School District. PTO, School Site Council, and EL Advisory Council are a few of the opportunities for parent involvement in addition to classroom volunteering. Presently we keep parents informed via monthly school newsletters, both print and electronically, Emailings of special events, and telephone communication with AlertNow for special events or emergencies. These communications are provided in English and Spanish versions. We have also provided specific parenting opportunities through Parents Institute for Quality Education in Spanish/English components. This program specifically encourages families to be involved in the child’s education through college.

As we have Spanish speaking families, we also provide interpreters at appropriate occasions.

TUPE Services for Pregnant Minors and Minor Parents (H&SC 104460):

Describe the TUPE services and referral procedures for pregnant minors and minor parents enrolled in the LEA and how they will be provided with tobacco-use prevention services. Include students participating in programs such as the California School Age Families Education (Cal-SAFE) program, the Adolescent Family Life Program (AFLP) administered through the Department of Health Services, and the Cal-Learn program administered by the Department of Social Services.

Performance Goal 5: *All students will graduate from high school.*

Planned Improvements: High School Graduation Rates, Dropouts, and AP

This section of the plan is intended to reflect the SSD’s efforts to reduce the percentage of students dropping out of school, and therefore, increase the percentage of students who graduate from high school. Also include a description below of the SSD’s efforts to ensure that all students have equal access to advanced placement (AP) opportunities.

This page does not apply to districts with no secondary students.

ASSURANCES

To assure the SSD's eligibility for funds included in this Plan, the Superintendent must provide an original signature below attesting to compliance with all of the following statements.

GENERAL ASSURANCES

1. Each such program will be administered in accordance with all applicable statutes, regulations, program plans, and applications.
2. The SSD will comply with all applicable supplement not supplant and maintenance of effort requirements.
3. (a) The control of funds provided under each program and title to property acquired with program funds will be in a public agency, a non-profit private agency, institution, organization, or Indian tribe, if the law authorizing the program provides for assistance to those entities; (b) the public agency, non-profit private agency, institution or organization, or Indian tribe will administer the funds and property to the extent required by the authorizing law.
4. The SSD will adopt and use proper methods of administering each such program, including – (a) the enforcement of any obligations imposed by law on agencies, institutions, organizations, and other recipients responsible for carrying out each program; and (b) the correction of deficiencies in program operations that are identified through audits, monitoring, or evaluation.
5. The SSD will cooperate in carrying out any evaluation of each such program conducted by, or for, the State educational agency, the Secretary, or other Federal officials.
6. The SSD will use such fiscal control and fund accounting procedures as will ensure proper disbursement of, and accounting for, Federal funds paid to the applicant under each such program.
7. The SSD will – (a) submit such reports to the State educational agency (which shall make the reports available to the Governor) and the Secretary as the State educational agency and Secretary may require to enable the State educational agency and Secretary to perform their duties under each such program; and (b) maintain such records, provide such information, and afford such access to the records as the State educational agency (after consultation with the Governor) or the Secretary may reasonably require to carry out the State educational agency's or the Secretary's duties.
8. The SSD has consulted with teachers, school administrators, parents, and others in the development of the local consolidated application/SSD Plan to the extent required under Federal law governing each program included in the consolidated application/SSD Plan.

9. Before the application was submitted, the SSD afforded a reasonable opportunity for public comment on the application and considered such comment.
- 9a. The SSD will provide the certification on constitutionally protected prayer that is required by Section 9524.
10. The SSD will comply with the armed forces recruiter access provisions required by Section 9528.

TITLE I, PART A

The SSD, hereby, assures that it will:

11. Participate, if selected, in the State National Assessment of Educational Progress in 4th and 8th grade reading and mathematics carried out under Section 411(b)(2) of the National Education Statistics Act of 1994.
12. If the SSD receives more than \$500,000 in Title I funds, it will allow one percent to carry out NCLB Section 1118, Parent Involvement, including promoting family literacy and parenting skills; 95 percent of the allocation will be distributed to schools.
13. Inform the school community and parents of schoolwide program authority and the ability to consolidate funds from Federal, State, and local sources.
14. Provide technical assistance and support to schoolwide programs.
15. Develop the school plan pursuant to California *Education Code* Section 64001 and Section 1114 and undertake activities pursuant to Section 1115 so adequate yearly progress toward meeting the State student academic achievement standards is made.
16. Fulfill school improvement responsibilities under section 1116, including taking actions under paragraphs (7) and (8) of Section 1116(b).
17. Provide services to eligible children attending private elementary schools and secondary schools in accordance with Section 1120, and timely and meaningful consultation with private school officials regarding such services.
18. Take into account the experience of model programs for the educationally disadvantaged, and the findings of relevant scientifically based research indicating that services may be most effective if focused on students in the earliest grades at schools that receive funds under this part.
19. In the case of an SSD that chooses to use funds under this part to provide early childhood development services to low-income children below the age of compulsory school attendance, ensure that such services comply with the performance standards established under Section 641A(a) of the Head Start Act.
20. Develop and implement plans or activities under sections 1118 and 1119 and California *Education Code* Section 64001.

21. Comply with requirements regarding the qualifications of teachers and paraprofessionals and professional development.
22. Inform the school community of the SSD's authority to obtain waivers on the school's behalf under Title IX.
23. Coordinate and collaborate, to the extent feasible and necessary with the State educational agency and other agencies providing services to children, youth, and families with respect to a school in school improvement, corrective action, or restructuring under section 1116 concerning factors that have significantly affected student achievement at the school.
24. Ensure, through the provision of professional development, recruitment programs, or other effective strategies, that low-income students and minority students are not taught at higher rates than other students by unqualified, out-of-field, or inexperienced teachers.
25. Use the results of the student academic assessments required under section 1111(b)(3), and other measures or indicators available to the agency, to review annually the progress the school to determine whether it is making the progress necessary to ensure that all students will meet the State's proficient level of achievement on the State academic assessments described in Section 1111(b)(3) within 12 years from the baseline year described in Section 1111(b)(2)(E)(ii).
26. Ensure that the results from the academic assessments required under section 1111(b)(3) will be provided to parents and teachers as soon as is practicably possible after the test is taken, in an understandable and uniform format and, to the extent practicable, provided in a language or other mode of communication that the parents can understand.
27. Develop or identify examples of high-quality, effective curricula consistent with section 1111(b)(8)(D) and California *Education Code* Section 64001.
28. For schools in school improvement status, ensure that not less than ten percent of their Title I funds are spent to provide professional development (in the area[s] of identification to teachers and principals) for each fiscal year.
29. Prepare and disseminate an annual SSD report card in accordance with Section 1111(h)(2).

TITLE I, PART D – SUBPART 2

30. Where feasible, ensure that educational programs in the correctional facility are coordinated with the student's home school, particularly with respect to a student with an individualized education program under Part B of the Individuals with Disabilities Education Act.
31. Work to ensure that the correctional facility is staffed with teachers and other qualified staffs that are trained to work with children and youth with disabilities taking into consideration the unique needs of such children and youth.

32. Ensure that the educational programs in the correctional facility are related to assisting students to meet high academic achievement standards.

TITLE II, PART A

34. The SSD, hereby, assures that:

- The SSD will comply with Section 9501 (regarding participation by private school children and teachers).
- The SSD has performed the required assessment of local needs for professional development and hiring, taking into account the activities that need to be conducted in order to give teachers the means, including subject matter knowledge and pedagogy skills, and to give principals the instructional leadership skills to help teachers, to provide students with the opportunity to meet California's academic content standards. This needs assessment was conducted with the involvement of teachers, including teachers participating in programs under Part A of Title I.
- The SSD will assure compliance with the requirements of professional development as defined in Section 9101 (34).

TITLE II, PART D

35. The SSD has an updated, local, long-range, strategic, educational technology plan in place that includes the following:

- Strategies for using technology to improve academic achievement and teacher effectiveness.
- Goals aligned with challenging state standards for using advanced technology to improve student academic achievement.
- Steps the applicant will take to ensure that all students and teachers have increased access to technology and to help ensure that teachers are prepared to integrate technology effectively into curricula and instruction.
- Promotion of curricula and teaching strategies that integrate technology, are based on a review of relevant research, and lead to improvements in student academic achievement.
- Ongoing, sustained professional development for teachers, principals, administrators, and school library media personnel to further the effective use of technology in the classroom or library media center.
- A description of the type and costs of technology to be acquired with Ed Tech funds, including provisions for interoperability of components.
- A description of how the applicant will coordinate activities funded through the Ed Tech program with technology-related activities supported with funds from other sources.
- A description of how the applicant will integrate technology into curricula and instruction, and a timeline for this integration.

- Innovative delivery strategies – a description of how the applicant will encourage the development and use of innovative strategies for the delivery of specialized or rigorous courses and curricula through the use of technology, including distance learning technologies, particularly in areas that would not otherwise have access to such courses or curricula due to geographical distances or insufficient resources.
 - A description of how the applicant will use technology effectively to promote parental involvement and increase communication with parents.
 - Collaboration with adult literacy service providers.
 - Accountability measures – a description of the process and accountability measures that the applicant will use to evaluate the extent to which activities funded under the program are effective in integrating technology into curricula and instruction, increasing the ability of teachers to teach, and enabling student to reach challenging state academic standards.
 - Supporting resources – a description of the supporting resources, such as services, software, other electronically delivered learning materials, and print resources that will be acquired to ensure successful and effective uses of technology.
36. The SSD must use a minimum of 25 percent of their funds to provide ongoing, sustained, and intensive high quality professional development in the integration of advanced technology into curricula and instruction and in using those technologies to create new learning environments.
37. **Any SSD that does not receive services at discount rates under section 254(h)(5) of the Communications Act of 1934 (47 U.S.C. 254(h)(5)) hereby assures the SEA** that the SSD will not use any Title II, Part D funds to purchase computers used to access the Internet, or to pay for direct costs associated with accessing the Internet, for such school unless the school, school board, local educational agency, or other authority with responsibility for administration of such school:
- has in place a policy of Internet safety for minors that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are obscene, child pornography, or harmful to minors; and
 - is enforcing the operation of such technology protection measure during any use of such computers by minors; and
 - has in place a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are obscene or child pornography, and is enforcing the operation of such technology protection measure during any use of such computers.
 - Any SSD that does receive such discount rates hereby assures the SEA that it will have in place a policy of Internet safety for minors required by Federal or State law.

TITLE III

38. The SSD assures that it consulted with teachers, researchers, school administrators, parents, and, if appropriate, with education-related community groups, nonprofit organizations, and institutions of higher education in developing the SSD Plan.
39. The SSD will be accountable for increasing English language proficiency and for LEP subgroups making adequate yearly progress.
40. The SSD is complying with Section 3302 prior to, and throughout, each school year.
41. The SSD annually will assess the English proficiency of all students with limited English proficiency participating in programs funded under this part.
42. The SSD has based its proposed plan on scientifically based research on teaching limited-English-proficient students.
43. The SSD ensures that the programs will enable English Learners to speak, read, write, and comprehend the English language and meet challenging State academic content and student academic achievement standards.
44. The SSD is not in violation of any State law, including State constitutional law, regarding the education of limited-English-proficient students, consistent with Sections 3126 and 3127.

TITLE IV, PART A

45. The SSD assures that it has developed its application through timely and meaningful consultation with State and local government representatives, representatives of private schools to be served, teachers and other staff, parents, students, community-based organizations, and others with relevant and demonstrated expertise in drug and violence prevention activities (such as medical, mental health, and law enforcement professionals).
46. The activities or programs to be funded comply with the principles of effectiveness described in section 4115(a) and foster a safe and drug-free learning environment that supports academic achievement.
47. The SSD assures that funds under this subpart will be used to increase the level of State, local, and other non-Federal funds that would, in the absence of funds under this subpart, be made available for programs and activities authorized under this subpart, and in no case supplant such State, local, and other non-Federal funds.
48. Drug and violence prevention programs supported under this subpart convey a clear and consistent message that acts of violence and the illegal use of drugs are wrong and harmful.
49. The SSD has a plan for keeping the school safe and drug-free that includes:
 - Appropriate and effective school discipline policies that prohibit disorderly conduct, the illegal possession of weapons, and the illegal use, possession, distribution, and sale of tobacco, alcohol, and other drugs by students.

- Security procedures at school and while students are on the way to and from school.
- Prevention activities that are designed to create and maintain safe, disciplined, and drug-free environments.
- A crisis management plan for responding to violent or traumatic incidents on school grounds.
- A code of conduct policy for all students that clearly states the responsibilities of students, teachers, and administrators in maintaining a classroom environment that:
 - Allows a teacher to communicate effectively with all students in the class.
 - Allows all students in the class to learn.
 - Has consequences that are fair, and developmentally appropriate.
 - Considers the student and the circumstances of the situation.
 - Is enforced accordingly.

50. The application and any waiver request under Section 4115(a)(3) (to allow innovative activities or programs that demonstrate substantial likelihood of success) will be available for public review after submission of the application.

TITLE IV, PART A, SUBPART 3

51. The SSD assures that it has, in effect, a written policy providing for the suspension from school for a period of not less than one year of any student who is determined to have brought a firearm to school or who possesses a firearm at school and the referral of a student who has brought a weapon or firearm to the criminal or juvenile justice system. Such a policy may allow the Superintendent to modify such suspension requirement for a student on a case-by-case basis.

TITLE V, PART A

52. The SSD has provided, in the allocation of funds for the assistance authorized by this part and in the planning, design, and implementation of such innovative assistance programs, for systematic consultation with parents, teachers and administrative personnel, and with such other groups involved in the implementation of this part (such as librarians, school counselors, and other pupil services personnel) as may be considered appropriate by the SSD.

53. The SSD will comply with this Part, including the provisions of Section 5142 concerning the participation of children enrolled in private nonprofit schools.

54. The SSD will keep such records, and provide such information to the SEA, as may be reasonably required for fiscal audit and program evaluation.

55. The SSD will annually evaluate the programs carried out under this Part, and that evaluation:

- will be used to make decisions about appropriate changes in programs for the subsequent year;
- will describe how assistance under this part affected student academic achievement and will include, at a minimum, information and data on the use of funds, the types of services furnished, and the students served under this part; and
- will be submitted to the SEA at the time and in the manner requested by the SEA.

New LEAP Assurances

56. Uniform Management Information and Reporting System: the SSD assures that it will provide to the California Department of Education (CDE) information for the uniform management information and reporting system required by No Child Left Behind, Title IV in the format prescribed by CDE. That information will include:

(i) truancy rates;

(ii) the frequency, seriousness, and incidence of violence and drug-related offenses resulting in suspensions and expulsions in elementary schools and secondary schools in the State;

(iii) the types of curricula, programs, and services provided by the chief executive officer, the State educational agency, local educational agencies, and other recipients of funds under this subpart; and

(iv) the incidence and prevalence, age of onset, perception of health risk, and perception of social disapproval of drug use and violence by youth in schools and communities. (Section 4112, General Provisions, Title IV, Part A, PL 107-110)

57. Unsafe School Choice Policy: the SSD assures that it will establish and implement a policy requiring that a student attending a persistently dangerous public elementary school or secondary school, as determined by the State, or who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary school or secondary school that the student attends, be allowed to attend a safe public elementary or secondary school within the local educational agency, including a public charter school. The SSD will submit on a format to be designated by CDE the information the state requires to complete annual federal reporting requirements on the number of schools that have been designated “persistently dangerous” in accordance with California State Board of Education policy. (Section 9532, General Provisions, Title IX, PL 107-110.)

Other

58. The SSD assures that a minimum of 95 percent of all students and a minimum number of students in each subgroup (at both the school and district levels) will participate in the state’s assessments program.

School Site Council Recommendations and Assurances

The school site council recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

1. The school site council is correctly constituted and was formed in accordance with district governing board policy and state law.
2. The school site council reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the school plan requiring board approval.
3. The school site council sought and considered all recommendations from the following groups or committees before adopting this plan (**Check those that apply**):

School Advisory Committee for State Compensatory Education Programs

English Learner Advisory Committee

Community Advisory Committee for Special Education Programs

Gifted and Talented Education Program Advisory Committee

Other (**list**)

4. The school site council reviewed the content requirements for school plans of programs included in this *Single Plan for Student Achievement* and believes all such content requirements have been met, including those found in district governing board policies and in the LEA Plan.
5. This school plan is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.
6. This school plan was adopted by the school site council at a public meeting on: May 2010 last revision.

APPENDIX A

On May 30, 2002, the California State Board of Education (SBE) adopted the five goals and 12 performance indicators for No Child Left Behind, as set forth in the Federal Register Notice of May 22, 2002. The SBE's adoption of the specified goals and performance indicators represents California's commitment to the development of an accountability system to achieve the goals of NCLB.

Collectively, NCLB's goals, performance indicators, and performance targets constitute California's framework for ESEA *accountability*. The framework provides the basis for the state's improvement efforts, informing policy decisions by the SBE and implementation efforts by the California Department of Education (CDE) to fully realize the system envisioned by NCLB; it also provides a basis for coordination with the State Legislature and the Governor's Office.

California's NCLB Performance Goals and Performance Indicators

Performance Goal 1: *All students will reach high standards, at a minimum attaining proficiency or better in reading and mathematics, by 2013-2014.*

- 1.1 **Performance indicator:** The percentage of students, in the aggregate and for each subgroup, who are above the proficient level in reading on the State's assessment. (These subgroups are those for which the ESEA requires State reporting, as identified in Section 1111(h)(1)(C)(i).)
- 1.2 **Performance indicator:** The percentage of students, in the aggregate and in each subgroup, who are at or above the proficient level in mathematics on the State's assessment. (These subgroups are those for which the ESEA requires State reporting, as identified in Section 1111(h)(C)(i).)
- 1.3 **Performance indicator:** The percentage of Title I schools that make adequate yearly progress.

Performance Goal 2: *All limited-English-proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.*

- 2.1. **Performance indicator:** The percentage of limited-English-proficient students, determined by cohort, who have attained English proficiency by the end of the school year.
- 2.2 **Performance indicator:** The percentage of limited-English-proficient students who are at or above the proficient level in reading/language arts on the State's assessment, as reported for performance indicator 1.1.

- 2.3 **Performance indicator:** The percentage of limited-English-proficient students who are at or above the proficient level in mathematics on the State’s assessment, as reported for performance indicator 1.2.

Performance Goal 3: *By 2005-2006, all students will be taught by highly qualified teachers.*

- 3.1 **Performance indicator:** The percentage of classes being taught by “highly qualified” teachers (as the term is defined in Section 9101(23) of the ESEA), in the aggregate and in “high-poverty” schools (as the term is defined in Section 1111(h)(1)(C)(viii) of the ESEA).
- 3.2 **Performance indicator:** The percentage of teachers receiving high-quality professional development. (See definition of “professional development” in Section 9101(34).)
- 3.3 **Performance indicator:** The percentage of paraprofessionals (excluding those with sole duties as translators and parent involvement assistants) who are qualified. (See criteria in Section 1119(c) and (d).)

Performance Goal 4: *All students will be educated in learning environments that are safe, drug free, and conducive to learning.*

- 4.1 **Performance indicator:** The percentage of persistently dangerous schools, as defined by the State.

Performance Goal 5: *All students will graduate from high school.*

- 5.1 **Performance indicator:** The percentage of students who graduate from high school, with a regular diploma:
- disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged; and,
 - calculated in the same manner as used in National Center for Education Statistics reports on Common Core of Data.
- 5.2 **Performance indicator:** The percentage of students who drop out of school:
- disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged; and
 - calculated in the same manner as used in National Center for Education Statistics reports on Common Core of Data.
